AFGI®

COMPANY PROFILE & CAPABILITY

Mission Support • Logistics • Defense & Security Solutions • Cybersecurity • AI & Datacenter Solutions • Medical • Tactical Equipment & Special Vehicles

Advanced Future Group International
General Trading & Contracting W.L.L.

Performance. Commitment. Trust.

AFGI at a glance

Established in Kuwait in 2003, AFGI supports government, defense and commercial programs across demanding operating environments.

01 **Mission-focused**

Base operations, facilities, engineering, procurement, logistics and specialized systems.

02 **Regionally established**

Licensed and operational presence in Kuwait, Qatar, UAE, Lebanon, Serbia and the United States.

Integrated operating domains

01 Procurement & Logistics

02 Facility Management

03 Engineering & Construction

04 Defense & Security Solutions

05 Tactical Equipment & Special Vehicles

06 Cybersecurity, AI & Data Center Solutions

Mission-ready wherever the requirement lands

- **Local presence**
- **International connectivity**

AFGI's operating footprint supports rapid mobilization across the GCC, MENA, Europe and North America—connected to worldwide logistics and supplier reach.

KUWAIT | QATAR | UAE | LEBANON | SERBIA | USA

Regional execution connected to 150+ countries

One operating model across the mission lifecycle

AFGI and its Partners coordinate every phase through one program rhythm - from requirement definition to operational close-out.

TRADING

Global sourcing, procurement and supply of equipment and materials

LOGISTICS

Freight, customs, DG and destination control

BUILD

Infrastructure, power, systems and commissioning

OPERATE

Facilities, life support, cyber and medical

SUSTAIN

Spares, maintenance, reporting and close-out

- **Single customer interface**
- **Single accountable P&L and delivery rhythm**

Why decision-makers select AFGI

01 **Single accountability**

Procurement, Logistics, Engineering, Facility Management, and Field Operations under one Provider

02 **Rapid mobilization**

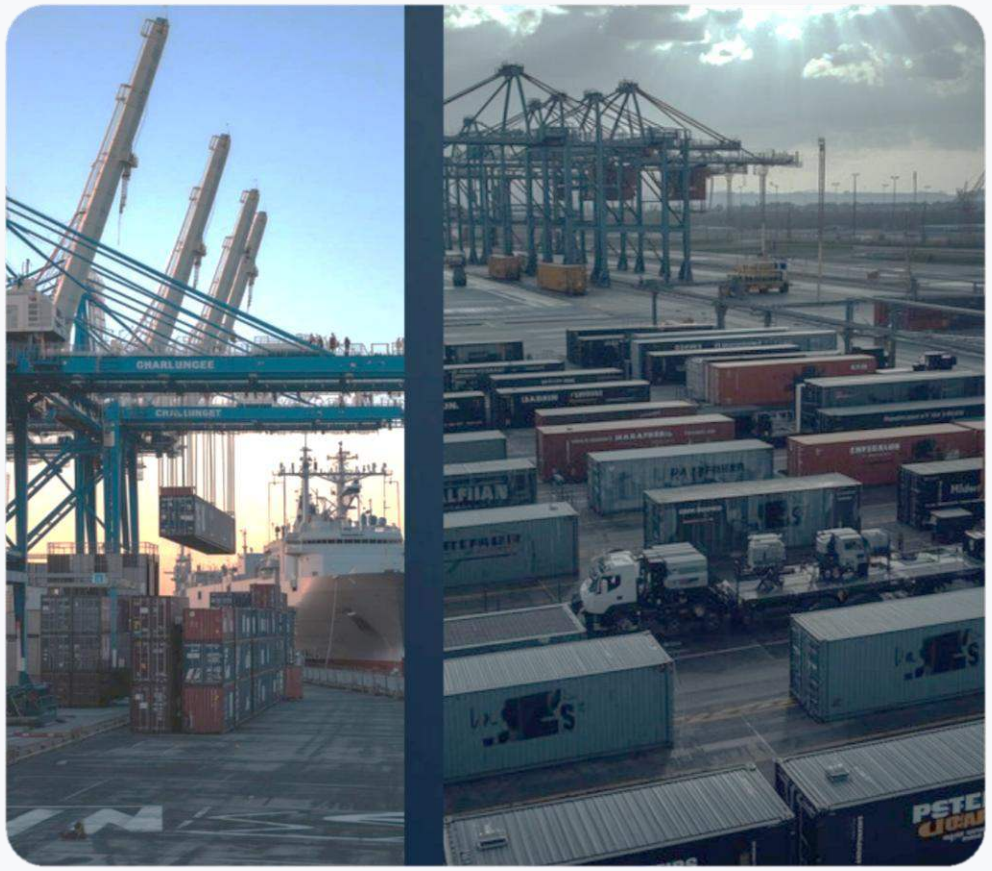
Scalable support for surge, contingency and full lifecycle requirements.

03 **Compliance discipline**

Safety, environmental, documentation and regulatory controls built into execution.

04 **Local access, global reach**

Regional operating knowledge connected to specialist international capability.



Our Valued Clients

Proven in Government and Defense Environments

AFGI and its partners' delivery history spans military installations, embassies, government programs, prime contractor operations, and critical infrastructure

U.S. & INTERNATIONAL GOVERNMENTS	DoD • Army • Air Force • USACE • Navy • Embassies
KUWAIT & GCC	Defense • Interior • National Guard • Energy • Critical infrastructure
PRIME CONTRACTOR SUPPORT	Construction • Base Operations & Life Support • Defense Systems • Supply Chain & Logistics
MISSION SETTINGS	Remote sites • High-Security Facilities • Contingency Operations

Proven delivery across the mission lifecycle

TASK ORDER EXECUTION

Rapid task order execution under BPA and MATOC IDIQ contracts supporting U.S. Government installations

AIRCRAFT SHELTERS & HANGARS

Turnkey design-build of weather shelters and aircraft hangars sustaining air operations in Kuwait and across Middle East

CONSTRUCTION

Full-scope construction and renovation including but not limited to: PEBs, CHUs, warehouses, bunkers, and shooting ranges

FACILITY MANAGEMENT

Sustainment and life-cycle O&M - custodial, HVAC, MEP, and preventive maintenance for operational continuity

OPERATIONAL FOOTPRINT

Kuwait | Iraq | Afghanistan | Qatar | UAE | KSA |Lebanon | USA | Serbia | North Macedonia | Djibouti | Kwajalein Atoll | Ascension Island

Base Life Support sustains deployed teams

Full-spectrum support for remote, austere and high-security locations

- Billeting, Bed-Down & Housing
- Food Service & DFAC Operations
- Laundry, Housekeeping & Sanitation
- Power Generation & Fuel Support
- Facility O&M, HVAC & Electrical
- MWR & Life Support Services
- Transportation, Fleet & Material Handling

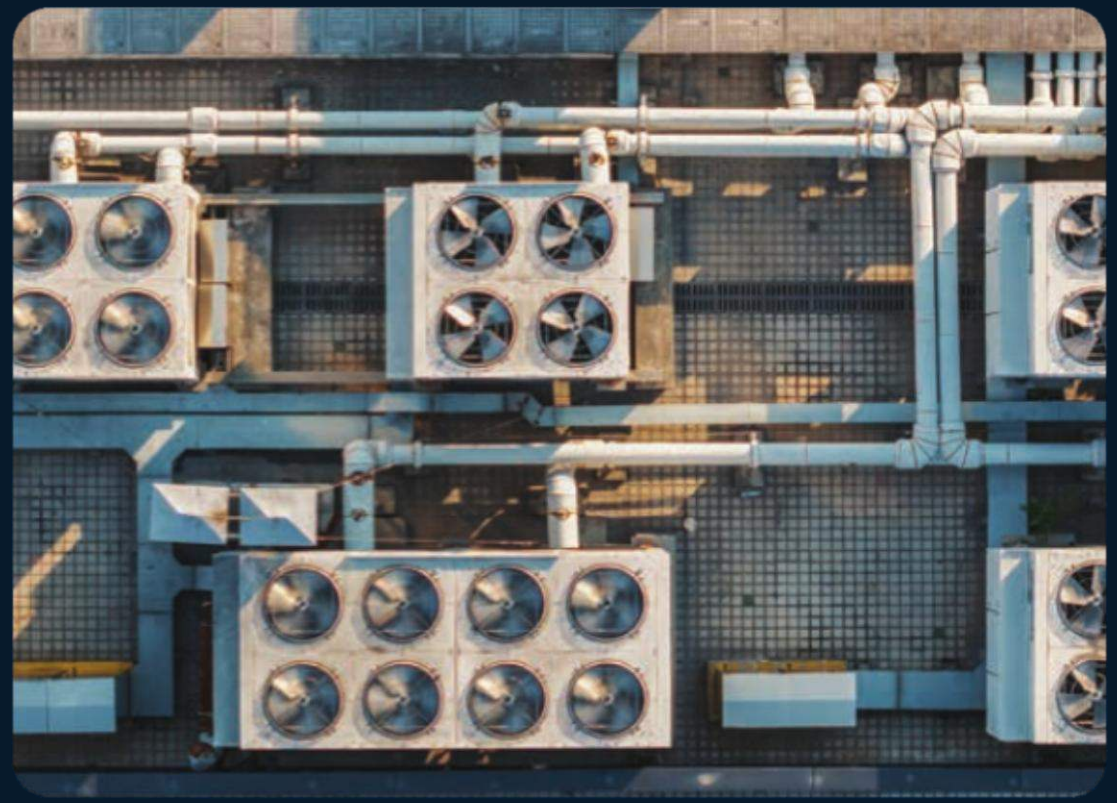
Facilities stay safe, compliant and mission-ready

Preventive maintenance and responsive field teams protect availability, safety and occupant readiness

HVAC & MEP
Preventive and corrective maintenance

JANITORIAL & GROUNDS
Cleaning, hygiene and exterior support

24/7 RESPONSE
Work-order control and emergency maintenance



Engineering delivers operating infrastructure

Mission-ready construction

- Design-build and renovation
- Pre-engineered buildings
- Modular and relocatable facilities
- Aircraft and equipment shelters
- Civil works, fencing and utilities
- Site preparation and infrastructure upgrades

Field execution aligned to the mission schedule

Power, HVAC and Utilities Sustainable Operations

DEPLOYABLE SHELTERS

TEMPORARY POWER

HVAC & MEP

Generators • Power Distribution • Cooling • Fuel support • Controls • Maintenance

Designed to keep critical facilities functioning through deployment, surge and sustained operations.

Procurement converts needs into readiness

AFGI sources, validates, moves and hands over the products and materials required to keep operations on schedule.

- Defense systems, tactical equipment, weapons & ITAR- controlled material
- Mission-critical power generation and expeditionary energy
- Force protection, safety & security equipment
- Operational stocks, sustainment and life-cycle support for armed forces
- C4ISR, communications and mission-support equipment
- Heavy equipment, mobility platforms and engineer support assets
- Electrical, HVAC and infrastructure hardening for forward operating bases

Global logistics connects origin to handover

End-to-end movement control

- Air, sea and road freight
- Heavy lift and project cargo
- Customs and documentation
- Port-side and airside coordination
- Real-time tracking and reporting
- Receiving, inspection and final handover

150+ countries | 24/7 operations

Tactical Vehicles - Built for Mission Readiness

LIGHT TACTICAL

MEDIUM TACTICAL

ARMOURED TACTICAL

Configured around mobility, protection, payload and end-user operating conditions

Special-purpose vehicles built around the task

Cold-chain & Refrigerated

Police & Secure Transport

Custody Transport

Fire, Utility & Municipal

Additional configurations

Armored vans • Cash-in-transit • Water/fuel tankers • Catering vehicles • Environmental maintenance • Mobile workshops • Custom body integration

Critical Infrastructure Protection

Drone intrusions can expose sensitive sites, endanger people and disrupt essential operations.

OIL FIELDS & ENERGY | **GOVERNMENT FACILITIES** | **AIRPORTS** | **HARBOURS & PORTS**

AFGI and its partners provide integrated Counter-UAS solutions

DETECT & IDENTIFY

Radar, RF sensing and EO/IR confirmation

TRACK & COMMAND

Threat assessment and coordinated response

SOFT-KILL OPTIONS

Electronic disruption of drone operation

HARD-KILL OPTIONS

Physical interception for authorized deployment

Ballistic protection matched to threat and user

Ballistic helmets

Ballistic plates

Vests & carriers

Ballistic shields

Threat-level selection • Ergonomic configuration • MOLLE integration • Mission-specific load carriage

Available configurations can be tailored to end-user protection, mobility and equipment-integration requirements.

Anti-Riot Gear for controlled public-safety response

Riot protection

Protective helmets

CBRN respiratory protection

Non-lethal response options

Shields • Batons • Protective suits • Helmets • Masks • Restraints • Non-lethal systems • Consumables

Equipment packages can be configured around unit doctrine, training, operating environment and end-user approvals.

Cyber resilience protects mission continuity – with our Partner in the USA

Modern security architecture and services for government and regulated environments.

- Zero Trust architecture
- NIST / RMF compliance engineering
- Cloud and hybrid security
- SOC and ESOC development
- AI-assisted detection and response
- Cyber program leadership and stabilization

Secure Data Centers turn strategy into capacity

AFGI with its Partner, SloariX can coordinate the full pathway from concept to commissioned infrastructure.

01 Strategy & feasibility

02 Site, power, cooling & fiber

03 Secure architecture & sovereignty

04 Construction & commissioning

05 Cyber operations & lifecycle support

Medical support for remote operations

Turnkey medical capability for challenging locations

- Remote-site clinics and medical facilities
- Healthcare staffing and HSE personnel
- 24/7 medical assistance and evacuation
- Ambulance and hospital coordination
- Medical supplies, pharmaceuticals and equipment
- Accredited emergency-care and field training

Regional medical networks support projects across remote East and Sub-Saharan Africa.

Compliance and Lifecycle Assurance - Reduce risk

AFGI and its Partners combine corporate registrations, verified operating controls and specialist delivery credentials into one accountable program framework

SAM.GOV REGISTERED	UEI LU7CK31BUCQ8 | NCAGE SAJ44 | JCCS 30685
QUALITY CONTROL	ISO 9001-certified delivery network
DANGEROUS GOODS	Class 1 capability and controlled documentation
TECHNICAL COMPLIANCE	ITAR / Export Administration Regulations awareness and end-user controls
LIFECYCLE SUPPORT	Training, spares, maintenance, reporting and close-out

Compliance is designed into mobilization—not added after award

AFGI®

READY TO SUPPORT THE NEXT MISSION

One accountable partner for mission support, logistics, security, technology and sustainment.
